

To those who are admitted to NCGM

## Face Masks During Your Stay at NCGM

All visitors to our hospital are required to wear face masks in the hospital beyond March 13, 2023.

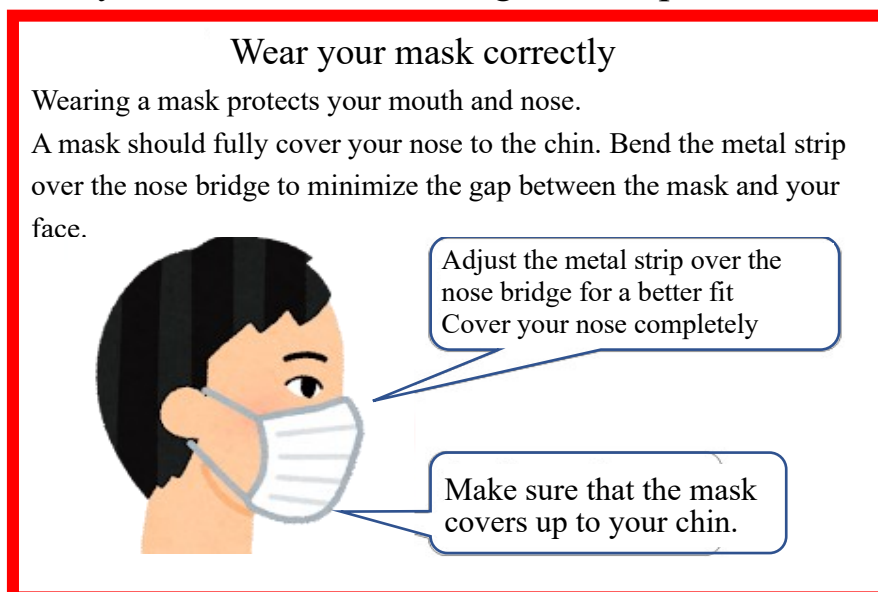

We have many visitors every day and it is a measure to prevent the spread of COVID-19 to those among them who are at higher risks of developing severe symptoms if infected.

As inpatients, you are required to wear face masks as well to protect yourselves from infection during your stay at NCGM.

- Wear a face mask whenever you go out of your room (into the ward hallway, for examination, etc.).
- Wear a face mask when our staff go into your room (into a curtained-off area) for medical consultation, medical care, etc.
- Make sure to **bring face masks with you** when you check in to our hospital for admission.

\*If you do not bring a face mask with you, please purchase one from a vending machine at the main entrance or stores on the basement floor.

We appreciate your kind understanding and cooperation.

Hospital Director, Center hospital of NCGM
