

Caring for cancer patients from foreign countries

~Perspectives from Singapore and Japan~

ON Friday,
Jan 26, 2024

NCGM 2ND FLOOR
CONFERENCE
ROOM

START AT
15:00PM-16:30PM

The primary objective of this event is to explore initiatives addressing cancer patient care in Singapore, discuss regional healthcare support for foreign patients with cancer, and deliberate on collaboration between local healthcare professionals and NCGM for cancer patient support. We have identified you as a distinguished expert in medical oncology, and your exceptional contributions to this field make you an ideal speaker for our audience.

Program
